V-MIN FORTE

A Unique Combination With Minerals, Vitamins, Amino Acids, Probiotics and Enzymes.

Presentation : 10 kgs

COMPOSITION :

Manganese	3000 mg
Calcium	68 gms
Cobalt Sulphate	250 mg
Iron	7500 mg
Copper Sulphate	4000 mg
Potassium Iodide	1000 mg
Magnesium	12000 mg
Sodium Selenate	1000 mg
Zinc Oxide	4000 mg

L-Lysine	2000 mg
DL. Methionine	2000 mg
Vitamin A	50000 I.U.
Vitamin D3	1000 I.U.
Vitamin E	450 I.U.
Prebiotics & Probiotics	5000 mg

DOSAGE :

5kgs to 10kgs For Acre
Fish : 10kgs For Tone of Feed
or Consult your Aqua technician

BENEFITS :

Improves Phytoplankton and Zooplankton growth
Improves health & growth of Aquatic Species Neutralise imbalances of minerals, Improves feed intake and enhances growth.

NPROGEL

An unique combination of feed binding Agent & Growth Promoter

Presentation : 5 Ltrs / 20 Ltrs

COMPOSITION :

Nutrient Gel with Vitamins, Minerals, Amino acids, Antistressors Chitin & Micro Elements

Proteins. Detoxify toxic materials and improves health. Improves absorption of the calcium and Phosphorus. Reduce incidence of loose shell.

BENEFITS :

Improves feed conversion and growth rate. Enhances resistance against diseases. Neutralizes imbalances of Vitamins, minerals, Amio Acids and

DOSAGE :

20 to 30ml per Kg. of Feed
or consult your Aqua technician for specific use.

AEROBACT

Water and Soil Probiotic

Presentation : 1 kg

COMPOSITION :

B. Subtilis, B. Megaterium, B. Pumulis, B. Polymixa, B. Licheniformis, Aspergillus oryzae, Aspergillus niger, Nitrosomonas, Nitrobactor, Pseudomonas, Thiobacillus denitrificans, Stabilizers.

- * provides more space to Prawn to eat and swim by removing bottom sludge.
- * Prevents toxic gases like ammonia, H₂S, SO₂ etc, in pond water.

BENEFITS :

- * Improves pond water transparency and clarity.
- * Eats the bottom settled pond wastes and avoids the decomposition.
- * makes the pond bottom clean, neat and visible,

DOSAGE :

Prawn : 1 kg / acre
or as advised by an aqua consultant.

CEEVIT PLUS

Coated Vitamin -C

Presentation : 1 kg

COMPOSITION :

Vitamin-C with poly phosphote base
Vitamin B₁₂
Growth Promoting Factors

reduce mortality. Promotes Calcium absorption inturns avoids. Vitamin-B12 plays a significant role in prevention of anaemia bones and tissues.

BENEFITS :

Improves feed conversion and growth rate.
Detoxifies toxic materials and improves health.
Reduces strees and promote complete moulting.
Enhances resistance against diseases and

DOSAGE :

Prawn / Shrimp : 10 gm per kg of feed
Fish : 5 gm per kg of feed
or consult your aqua technician for Specific usage and Dosage.

Antibiotic Free
Steroidal Free

GROZYM - XL

Gut Care & Growth Promoter

Presentation : 500 gms

COMPOSITION :

Combination of active/inactive species of Lactobacillus and growth enhancers, gut and intestinal beneficial enzymes producing bacteria.

BENIFITS :

Control the white Gut
Inhibits the pathogens by maintaining the colonial population.
Beneficially shrimp by improving its

intestinal microbial balance.
Shows high tolerance to low PH.
Having anti inflammatory, anticancerous properties, shows significant immune response.

DOSAGE :

10 gms per 1Kg Feed or as directed by aqua culture consultant.

V-PROGUT

For Disease Prevention & Growth Promotion In Shrimps

Presentation : 1 Ltr

COMPOSITION :

* Proprietary blend of organic acids of high biological value.

ADVANTAGES :

* Improves feed hygiene, through the reduction of PH and buffer capacity in the gut, and control of gram negative bacteria such as Saimonella sp. and Ecoli.

- * Improves protein and fat digestibility and Increases minerals absorption.
- * As the pH and microbial burden in the animal's gut is reduced, beneficial microflora is maintained, which ensures a healthy gut.
- * Reduces the risk of gut disorders and enhances the growth performance.

DOSAGE :

10-15 ml / kg of feed for 7 days Or as advised by the Aqua Culture Consultant.

OXYPLUS Granivals

Flow of oxygen

Presentation : 1 kg / 5 kgs

COMPOSITION :

A combination of three power full oxidizers

BENEFITS :

Enhanced dissolved oxygen levels.
Helps to the aerobic bacteria in reducing organic loads. Maintains activity at all levels of hardness of water Absorbs noxious gases of the pond bottom and provides healthy environment for the active growth of shrimp

DOSAGE :

1kg per Acre (2 feet water depth)
or 2kg per Acre in extreme casess
Dose depend upon the pond condition or consult your Aqua technician.

RHODO - PS

Liquid Probiotic

Presentation : 20 Ltrs

COMPOSITION :

Rhodococcus, Rhodobacter
Live beneficial bacteria

BENEFITS :

Clear good bottom sediments.
Prevents production of toxic gases.
Arrests the growth of bacterial pathogens.
Makes pond water clean, clear and visible.
Best for the maintanance of pH & plankton.

DOSAGE :

For Shrimp : 5 Ltrs/Acre one mtr. water depth.
For fish 2 Ltrs / Acre every 15 days
Or as advised by an Aqua consultant.

Antibiotic Free
Steroidal Free

AQUA GUARD-80

Excelent Water Sanitizer

Presentation : 1 Ltr / 5 Ltrs

COMPOSITION :

Benzyl Konium Chloride 80%
Stabilizers Q.S.

BENEFITS :

- * Promotes healthy moulting
- * Prevents water pollution and purifies water
- * Effectively controls viral, Bacterial, Protozoal and Fungal Diseases
- * Useful in prophylactic treatment of surfaceulcers, wounds and lesions etc.

DOSAGE :

1 Ltr per Acre
(3 Feet Water Depth)
Fish : 1 Ltr. per Acre (4 Feet water Depth)
Mixing with sand.

VYROKILL

An unique Broad Spectrum Virucidal, Bactericidal, Fungicidal Disinfectant

Presentation : 500 gms

COMPOSITION :

Potassium monopersulphate,
Potassium hydrogen sulphate,
Potassium sulphate Sodium chloride
Containing Triple salt

BENEFITS :

Is a unique broad spectrum Disinfectant effective against all types of pathogenic micro organisms I.e., virus, bacteria, fugal, protozoa. Its

an ideal disinfectant to use Aqua culture it has be proven to destroy pathogens in the Aquatic environment. It does not affect water quality, dissolved oxygen level and doesnot destroy the shrimp's source.

DOSAGE :

In Aqua culture 500 gms / Acre
or consult your Aqua technician.

K-SOFT Powder

Water Softener & Hardness Controller

Presentation : 1kg / 5 kgs

COMPOSITION :

K-Soft Consists the Grade-I Ethylene diamine tetraacetic acide (EDTA) for aquaculture purposes added with minerals.

BENEFITS :

- * Reduces hard shell problems of shrimps.
- * Corrects Hardness and Alkalinity problems of pond water

- * Reduces effects of excess iron and other toxic heavy metals in the pond.
- * Reduces water turbidity & suspended solids.
- * Makes pollution free pond water.
- * Promotes healthy plankton bloom.
- * Makes bore well water suitability for aquaculture.
- * Helps for relieving stress and more activeness.
- * Maintains optimum pH levels in pond waters.

DOSAGE :

1kg per acre
One Meter Water Depth or Consult your aqua technician

GAS OFREE-Powder

Ammonia Reducer

Presentation : 500 gms

Gas OFree is a 100% natural product comprising entirely of pure Yucca schidigera with probiotics.

BENEFITS :

- * Absorbs toxic gases like Ammonia, Hydrogen Sulphide, Methane etc.,
- * Action is fast, the animals recover quickly from the stress or shock.
- * Improves water quality quickly in high risk conditions.

- * Optimizes plankton levels.
- * Helps to increase DO levels.
- * Animals grow fast without stress.

DOSAGE :

500 gms for Acre
or consult your Aqua technician for Specific usage and Dosage.

Antibiotic Free
Steroidal Free
